

Ederson Franzen Fagundes

◆ ◆ ◆ ◆ Full stack developer

ABOUT ME

I am a young and versatile developer with skills in backend, frontend, and mobile development, as well as video editing, live programming, 3D modeling, and game creation. I'm passionate about technology, fully dedicated to every project I take on.

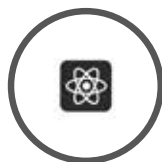

Next.js

Nest.js

Laravel

React.js

EXPERIENCE

Video Editor - OCPNews

Out 2020 - Out 2021

I interned at OCPNews, a local newspaper, and later worked as a live broadcast operator, where I edited reports, managed social media post cuts, handled design, audio, interviews, and camera work.

Laravel and React Native - Be Mobile

May 2022 - August 2023

I worked remotely for a company based in Pelotas, RS, initially as a backend developer and later transitioning to mobile development (React Native), as well as working on a few front-end applications. In backend development, I primarily used Laravel as the main stack.

Next.js projects - Freelance

Jan 2024 - May 2024

Next.js and Nest.js - Shaw and Partners

Dec 2024 - Present

I'm working remotely for an international company called Shaw and Partners, maintaining the Timofi platform. I also participate in the creation of new AI-based projects for commercial purposes.

EDUCATION

Technical integrated high school in development

Senai 2020 - 2022

I completed a 3-year integrated technical course in Systems Development at Sesi Senai Jaraguá do Sul.

I reinforced my knowledge in SQL, Java, Arduino, Design, Node.js, Networking, and even (personally) hacking.

Software Engineering degree

Anhangüera 2023 - Present

I am currently pursuing a Software Engineering degree remotely from Anhangüera University.
